SKILLS

- HTML & CSS
- JavaScript
- Typescript
- Bootstrap
- Tailwind
- React
- Next.js
- PHP
- Laravel
- API
- Git & Github
- Linux
- MySQL

ABOUT

I'm a web developer with over four years of experience in building full-featured web applications. While currently working in frontend development, I've also collaborated closely with backend teams and contributed to full-stack projects. Alongside my bachelor's studies, I've continuously improved my skills by exploring new tools, frameworks, and best practices. I enjoy solving problems, working in collaborative environments, and constantly pushing myself to grow and create better user experiences.

EDUCATION

DATA LAND TECHNOLOGY

Online web development courses

Learning Since 2021

NCC LEVEL 3 DIPLOMA, KMD INSTITUTE, YANGON

Finished with all destinction.

2023 - 2023

NCC LEVEL 4 DIPLOMA, KMD INSTITUTE, YANGON

Completed both the first and second semesters.

2023 - 2024

NCC LEVEL 5 DIPLOMA, KMD INSTITUTE, YANGON

Completed the first semester and going to second semester

2024 - 2025

WORK EXPERIENCE

SOFTCOMM

Web Developer Intern

- Developed an employee management dashboard using Laravel
- Assisted in web application development and testing to ensure functionality and usability

AYA BANK

API Integration Intern

- Collaborated on performance optimization
- Integrated APIs and managed dynamic content for web applications

SOFTNOVATIONS

Junior Frontend Developer

- Designed and developed responsive websites using Next.js, working closely with UI/UX prototypes and backend API teams.
- Integrated APIs into client-facing applications to ensure smooth and reliable functionality.
- Implemented frontend technologies to improve performance, scalability, and user experience.

CONNECTED GROUP

Junior Frontend Developer

- Developed responsive websites and collaborated on UI/UX prototypes and backend APIs using NextJS
- Integrated APIs into client websites, ensuring seamless functionality
- Evaluated and selected frontend technologies to optimize performance and user experience

PROJECTS

NEW STYLE TOUR

Next.JS, Shadcn UI, Tailwind CSS, TypeScript, React Hook Form

Worked on connecting APIs and coordinating between UI/UX and backend teams. Helped build booking systems for various services including tours, visas, buses, cars with drivers, insurance, flights, and hotels. Added features like tracking, filtering, searching, and detailed pages. Also supported language localization for multi-language use.

Website Link

TRADERZONE

Next.JS, Material UI, TypeScript, Redux, Laravel, MySQL

Built the user interface using Next.js and MUI with full responsiveness across devices. Connected APIs to sync frontend with backend services. Developed a real-time trading system where users can view live market status and perform trades instantly. Included success and failure handling to give users immediate feedback on each transaction. Also added a notification system to alert users of trade updates and system events.

COGNITO

Next.JS, Daisy UI, Tailwind CSS, React Hook Form, Prisma, PostgresSQL

Developed a web-based learning platform to share and access educational content. Built features such as course and lesson creation, video uploads, and user management. Focused on making the platform easy to use, with a clean interface and responsive design. Also worked on organizing content by category and improving the overall user experience.
Next.JS

LUXE BEAUTY BKK

Next.JS, Magic UI, Tailwind CSS, Framer Motion, Resend Mail

Created a modern and responsive landing page using Next.js, Tailwind CSS, and ShadCN UI. Integrated Framer Motion to enhance user interaction with smooth animations. Set up a mail system with custom email templates to handle user inquiries effectively.
Next.JS

Website Link

HEAVEN DISPENSARY

Next.JS, Magic UI, Tailwind CSS, Framer Motion

Worked on connecting APIs and coordinating between UI/UX and backend teams. Helped build booking systems for various services including tours, visas, buses, cars with drivers, insurance, flights, and hotels. Added features like tracking, filtering, searching, and detailed pages. Also supported language localization for multi-language use.

Website Link

RAVEN TATTOO STUDIO

Next.JS, Magic UI, Tailwind CSS, Framer Motion

Developed a sleek and minimal landing page with a strong focus on performance and responsiveness. Used Next.js, Tailwind CSS, and ShadCN UI for the interface, along with Framer Motion for subtle animated elements. Included a working mail system for contact form submissions.
